### Controller=student/action insert

url	/?controller=student&action=insert&code=207623215&name=roble s&career=ingenieria&email=juanito@hotmail.com&password=1234& mobile=123456789&github=hola&web_page=www.juanito.com
Post_pa rameter s	Code:String Name:String Carrer:String Email:String Password:String Mobile:String Github:String Web_page:String
result	The student has been inserted or error

### Controller=student /action delete

url	/?controller=student&action=delete&code=207623215&name=robl es&career=ingenieria&email=juanito@hotmail.com&password=123 4&mobile=123456789&github=hola&web_page=www.juanito.com
Post_pa rameter s	Code:String Name:String Carrer:String Email:String Password:String Mobile:String Github:String Web_page:String
result	the student has been deleted or error

### Controller=student/action select

url	/?controller=student&action=select&code=207623215&name=roble s&career=ingenieria&email=juanito@hotmail.com&password=1234& mobile=123456789&github=hola&web_page=www.juanito.com
Post_p aramet ers	Code:String Name:String Carrer:String Email:String Password:String Mobile:String Github:String Web_page:String
result	the student has been selected or error

### Controller=student/action update

url	/?controller=student&action=update&code=207623215&name=robl es&career=ingenieria&email=juanito@hotmail.com&password=123 4&mobile=123456789&github=hola&web_page=www.juanito.com
Post_pa rameter s	Code:String Name:String Carrer:String Email:String Password:String Mobile:String Github:String Web_page:String
result	the student has been updated or error

### Controller=student/action change\_password

url	/?controller=student&action=change_password&code=20762 3215&password=1234
Post_parame ters	Code:String Password:String
result	the student has changed his password or error

### Controller=teacher/action insert

url	<code>/?controller=teacher&amp;action=insert&amp;code=207623215&amp;name=robles &amp;email=juanito@hotmail.com&amp;password=1234</code>
Post_parameters	Code:String Name:String Email:String Password:String
result	the teacher has been inserted or error

### Controller=teacher/action delete

url	<code>/?controller=teacher&amp;action=delete&amp;code=207623215&amp;name=robles &amp;email=juanito@hotmail.com&amp;password=1234</code>
Post_parameters	Code:String Name:String Email:String Password:String
result	the teacher has been deleted or error

### Controller=teacher/action update

url	<code>/?controller=teacher&amp;action=update&amp;code=207623215&amp;name=robles &amp;email=juanito@hotmail.com&amp;password=1234</code>
Post_parameters	Code:String Name:String Email:String Password:String
result	the teacher has been updated or error

### Controller=teacher/action select

url	<code>/?controller=teacher&amp;action=select&amp;code=207623215&amp;name=robles &amp;email=juanito@hotmail.com&amp;password=1234</code>
Post_parameters	Code:String Name:String Email:String Password:String
result	the teacher has been selected or error

Controller=teacher/change\_password

url	/?controller=student&action=change_password&code=207623215&password=1234
Post_parameters	Code:String Password:String
result	the teacher has changed his password or error

## Controller=course/action insert

<b>url</b>	<code>/?controller=course&amp;action=insert&amp;code=207623216&amp;scholar_cycle=2014A&amp;name=Programacionweb&amp;section=D03&amp;NRC=01234&amp;academy=Computacion&amp;class_days[]=miercoles&amp;class_days[]=viernes&amp;hours_per_day=2&amp;hours_each_day[]=lunes&amp;hours_each_day[]=11:30</code>
<b>Post_parameters</b>	<code>code:String scholar_cycle:String name:String section:String NRC:String academy:String class_days:String hours_per_day:String hours_each_day:String</code>
<b>result</b>	the course has been inserted or error

## Controller=course/action delete

<b>url</b>	<code>/?controller=course&amp;action=delete&amp;code=207623216&amp;scholar_cycle=2014A&amp;name=Programacionweb&amp;section=D03&amp;NRC=01234&amp;academy=Computacion&amp;class_days[]=miercoles&amp;class_days[]=viernes&amp;hours_per_day=2&amp;hours_each_day[]=lunes&amp;hours_each_day[]=11:30</code>
<b>Post_parameters</b>	<code>code:String scholar_cycle:String name:String section:String NRC:String academy:String class_days:String hours_per_day:String hours_each_day:String</code>
<b>result</b>	the course has been deleted or error

## Controller=course/action select

url	<code>/?controller=course&amp;action=select&amp;code=207623216&amp;scholar_cycle=2014A&amp;name=Programacionweb&amp;section=D03&amp;NRC=01234&amp;academy=Computacion&amp;class_days[]=miercoles&amp;class_days[]=viernes&amp;hours_per_day=2&amp;hours_each_day[]=lunes&amp;hours_each_day[]=11:30</code>
Post_parameters	<code>code:String scholar_cycle:String name:String section:String NRC:String academy:String class_days:String hours_per_day:String hours_each_day:String</code>
result	the course has been selected or error

## Controller=course/action update

url	<code>/?controller=course&amp;action=update&amp;code=207623216&amp;scholar_cycle=2014A&amp;name=Programacionweb&amp;section=D03&amp;NRC=01234&amp;academy=Computacion&amp;class_days[]=miercoles&amp;class_days[]=viernes&amp;hours_per_day=2&amp;hours_each_day[]=lunes&amp;hours_each_day[]=11:30</code>
Post_parameters	<code>code:String scholar_cycle:String name:String section:String NRC:String academy:String class_days:String(array) hours_per_day:String hours_each_day:String(array)</code>
result	the course has been update or error

## Controller=assists/action insert

url	<code>/?controller=assists&amp;action=insert&amp;students[]=Juanito&amp;students[]=juanita&amp;date=02/02/14</code>
-----	---

<b>Post_parameters</b>	Students: array string Date:String
<b>result</b>	The assists has been inserted or error

### Controller=assists/action delete

<b>url</b>	<code>/?controller=assists&amp;action=delete&amp;students[]=Juanito&amp;students[]=juanita&amp;date=02/02/14</code>
<b>Post_parameters</b>	Students: array string Date:String
<b>result</b>	The assists has been deleted or error

### Controller=assists/action select

<b>url</b>	<code>/?controller=assists&amp;action=select&amp;students[]=Juanito&amp;students[]=juanita&amp;date=02/02/14</code>
<b>Post_parameters</b>	Students: array string Date:String
<b>result</b>	The assists has been selected or error

### Controller=assists/action update

<b>url</b>	<code>/?controller=assists&amp;action=update&amp;students[]=Juanito&amp;students[]=juanita&amp;date=02/02/14</code>
<b>Post_parameters</b>	Students: array string Date:String
<b>result</b>	The assists has been updated or error

### controller=scholar\_cycle/action insert

<b>url</b>	<code>/?controller=scholar_cycle&amp;action=insert&amp;cycle_format=2014B&amp;start_date=02/02/14&amp;end_date=02/05/14&amp;nolaboral_days=21/03/14</code>
------------	--

<b>&amp;Post_parameters</b>	cycle_format:String start_date:String end_date:String nolaboral_days:String
<b>result</b>	The assists has been inserted or error

## controller=scholar\_cycle/action delete

<b>url</b>	/?controller=scholar_cycle&action=delete&cycle_format=2014B&start_date=02/02/14&end_date=02/05/14&nolaboral_days=21/03/14
<b>&amp;Post_parameters</b>	cycle_format:String start_date:String end_date:String nolaboral_days:String
<b>result</b>	The assists has been deleted or error

## controller=scholar\_cycle/action select

<b>url</b>	/?controller=scholar_cycle&action=select&cycle_format=2014B&start_date=02/02/14&end_date=02/05/14&nolaboral_days=21/03/14
<b>&amp;Post_parameters</b>	cycle_format:String start_date:String end_date:String nolaboral_days:String
<b>result</b>	The assists has been selected or error

controller=scholar\_cycle/action update

url	/?controller=scholar_cycle&action=update&cycle_format=2014B&start_date=02/02/14&end_date=02/05/14&nolaboral_days=21/03/14
&Post_parameters	cycle_formant:String start_date:String end_date:String nolaboral_days:String
result	The assists has been updated or error

### controller =notes/action insert

url	/?controller=notes&action=insert&percentage=100%&activity=100
Post_parameters	activity:String percentage:String
result	The assists has been inserted or error

### controller =notes/action delete

url	/?controller=notes&action=delete&percentage=100%&activity=100
Post_parameters	activity:String percentage:String
result	The assists has been deleted or error

### controller =notes/action select

url	/?controller=notes&action=select&percentage=100%&activity=100
Post_parameters	activity:String percentage:String
result	The assists has been selected or error

### controller =notes/action update

url	/?controller=notes&action=update&percentage=100%&activity=100
Post_parameters	activity:String percentage:String
result	The assists has been updated or error

### controllers=lists/action insert

url	/?controller=lists&action=insert&students[]=juanito&students[]=juanita
Post_parameters	Students:String(array)
result	The assists has been inserted or error

### controllers=lists/action delete

url	/?controller=lists&action=delete&students[]=juanito&students[]=juanita
Post_parameters	Students:String(array)
result	The assists has been deleted or error

### controllers=lists/action select

url	/?controller=lists&action=select&students[]=juanito&students[]=juanita
Post_parameters	Students:String(array)
result	The assists has been seleted or error

### controllers=lists/action update

url	/?controller=lists&action=update&students[]=juanito&students[]=juanita
Post_parameters	Students:String(array)
result	The assists has been updated or error
